## Ecological site keys

### MLRA 129 Site Key

---

- 1a. Parent materials of sandstone bedrock
  - 2a. Soils with sandstone bedrock on steep side slopes...Sandstone Steep (F129XY002WV)
  - 2b. Soils with sandstone bedrock on ridges...Sandstone Ridge (F129XY007WV)
- 1b. Parent materials shale and sandstone
  - 3a. Soils with shale and sandstone bedrock on steep side ...Steep Shale (F129XY006WV)
  - 3b. Soils with shale and sandstone bedrock on ridges...Shale Ridge (F129XY005WV)
- 1c. Parent materials shale and sandstone unconsolidated material
  - 4a. Mined soils with shale and sandstone bedrock...Mine Spoil (F129XY004WV)
- 1d. Alluvial and colluvial soils adjacent to soils with shale and sandstone bedrock
  - 5a. Alluvial/ Flood plain soils adjacent to soils with shale and sandstone bedrock... Floodplains (F129XY001WV)
  - 5b. Colluvial/ Terrace soils adjacent to soils with shale and sandstone bedrock... Terraces (F129XY003WV)
